NEW CHAT FEATURE

When we started Resell Connect, the vision was to start a mature community where fellow resellers can discuss, share ideas, experiences and ask questions. More importantly, to collaborate with one another and create a family vibe.

The new chat feature has enabled us to send real time messages and alerts to all members. Further more, it has allowed members to communicate to one another instantaneously.

Take a look at the picture on the right to see the chat channels and the purpose behind them. You will get notified per message sent, however all members have the ability to mute each channel if required.

3 MONTH REVIEW WITH RESELL CONNECT

"Since joining RC I have really stepped out of my comfort zone of selling on eBay. The great thing is that they do all the research for you, you just buy the product they recommend and resell it. In the last few months I have sold 18 kayaks of different models. Who knew kayaks were reselling?! The way they notify you of restocks is second to none. It baffles me how random some of the items are but the crazy thing is some of these things resell for huge amounts. There is a strong demand for items, even if you dont know about it the team at Resell Connect do. I Recently hit the £3.5K sales mark over a 70 day period. My profit after fee's was just under £2000. Not bad whilst also working a full time job! highly recommend. Even if you can purchase just one item that the team recommend you will make your £8 back plus more"

OCTOBER 2020

THIRD WAVE OF RELEASES?

We keep hearing whispers that retailers are going to release a third batch very soon. Currently we have had two releases, all of which have sold out in record times. This could be the last release this year...If it isn't, current resell prices will increase even more!

GETTING YOU AHEAD OF THE GAME

Resell Connect started covering this product since early May 2020. All paid members were provided with vital information, drop times and pre-order release dates from every single retailer in the UK.

On the 24th Sept 2020 all of our members were made aware of which retailer had gone live for pre-orders. Amazon sold out in a record 13 minutes.

The results? Members were able to secure 10+ PS5's each. The profit? £200 an item! That's £2000 profit on this one release.

WHY WE THINK THIS COULD BE THE MOST PROFITABLE FLIP?

- One of the best spec gaming consoles EVER released
- On every gamers Christmas list
- Second lockdown means time to dust off the console again and get the games out!
- Limited supply + High Demand = High Resell
- Wider selection of titles available
- Expansion in digital sales with a digital console

THE POKEMON BOOM

20 YEARS AND THE POPULARITY OF POKEMON IS STILL GOING STRONG

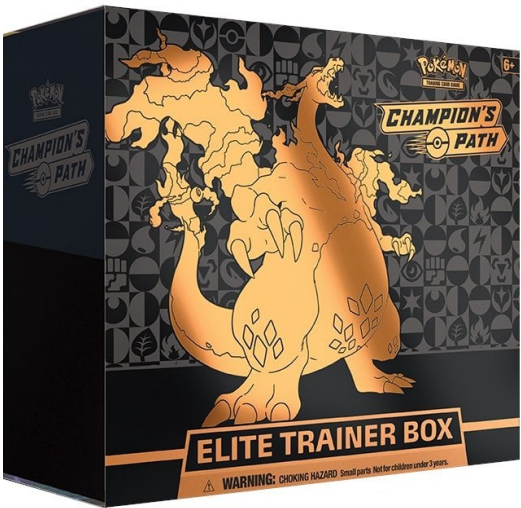

Prior to Resell Connect's launch, we had been investing into Pokemon cards heavily as we saw tremendous value. Why do we see value in them? Nostalgia & popularity. 90's kids who all mostly grew up up watching & collecting Pokemon are now adults who naturally want to revisit their childhood. In addition to the demand/popularity in Pokemon which has continued to increase each year throughout.

Pokemon - Champions Path. Our analysts were already aware on how popular this set would be prior or any 'official' information releasing.

Each Elite trainer box (ETB) retailed around £45 each and included an 'Full Art Charizard V Promo' (first picture below). Prior to this release, the card was only available in Japan as a trophy card.

Instantly, we knew the Full Art Charizard V Promo which was included in each ETB would resell alone for £30-£40 each, pretty much covering the cost of the entire box. You would then have 10 packs to open which could include cards worth £20-30 each but also two ultimate rare Charizard cards. A Shiny Charizard V & Rainbow Rare Charizard VMAX which are worth a minimum of £500 each.

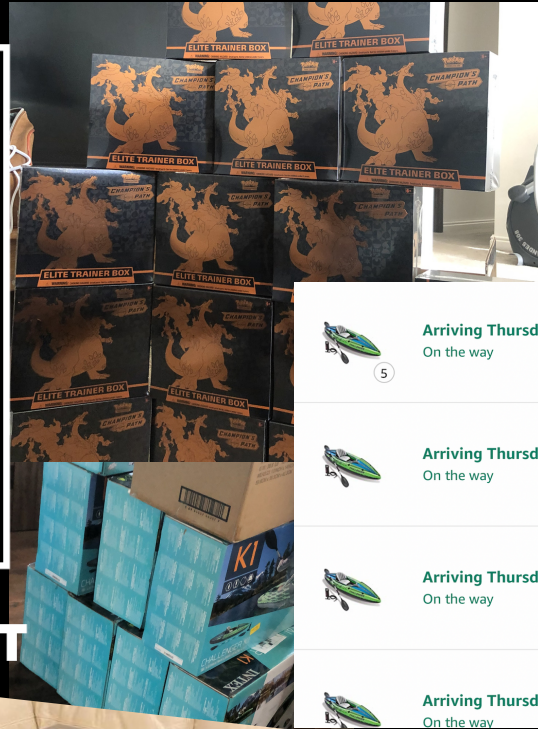

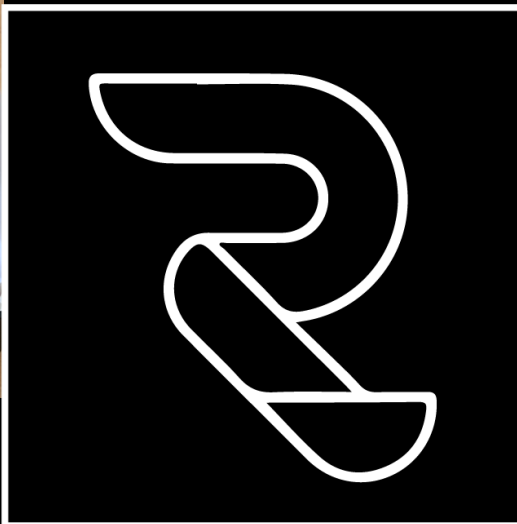

All members were notified on how to purchase, when to purchase and how to sell these cards/boxes. Sealed boxes are now reselling for £100 each and our analysts are predicting these to be an great long term hold.

Strategy.
Game plan.
Live stock alerts.

You will hear this a lot from us, but these three pillars are integral to how we work with any of our long term flips. We create a strategy behind a solid product that we believe in, we will create a game-plan on how and where we will purchase this item from. Finally we will cover every single retailer that is out there to ensure that you are securing these limited edition items.
